

**F P6** A Peculiar Newsletter: The official circular of the IAU Working Group on Ap and Related Stars

G. A. Wade<sup>1</sup> and S. Bagnulo<sup>2</sup>

<sup>1</sup> *Royal Military College of Canada*

<sup>2</sup> *European Southern Observatory, Chile*

A Peculiar Newsletter (ApN) is the official circular of the IAU Working Group on Ap and Related Stars. The www-based newsletter provides rapid access to breaking research on chemically peculiar stars via abstracts submitted by the user community. Every 6 months, the newsletter is “crystallised” and a PDF version is circulated. This poster reviews the current issue of ApN.
