

# **A OR1** The physical properties of normal A stars

**S. J. Adelman**

*Department of Physics, The Citadel, 171 Moultrie Street, Charleston, SC 29409, United States of America*

Designating a star as of A-type is a result of spectral classification. After separating the peculiar stars from those deemed to be normal using the results of a century of astrophysical wisdom, I review the physical properties of the "normal" stars.
