

Observing techniques, instrumentation and science for metre-class telescopes

3

September 11 - 15, 2023
Tatranská Lomnica, Slovakia

TOPICS:

Telescope networks and surveys, Ground-based support of cosmic missions, Follow-up observations,

High-precision ground-based photometry, Astronomical polarimetry, Near-IR observations,
Robotic telescopes, Fast photometry, Lucky imaging, Spectrographs, Interferometry,

Exoplanets, Eclipsing binary stars, Eruptive stars,
Pulsating stars, Young and active stars,
Solar system, Space debris,
Galactic astronomy

SOC:

Theodor Pribulla, chair (Slovakia)
Henri Boffin (ESO, Germany)
Ján Budaj (Slovakia)
Hans Deeg (Spain)
Eric Gaidos (USA)
Eike Guenther (Germany)
Raine Karjalainen (Czechia)
Anatoly Miroshnichenko (USA)
Ulisse Munari (Italy)
Augustin Skopal (Slovakia)
Gyula Szabó (Hungary)
Martin Vaňko (Slovakia)
Staszek Zola (Poland)

LOC:

Ľubomír Hambálek, chair
Ján Adamčák
Richard Komžík
Emil Kundra
Andrii Maliuk
Natalia Shagatova
